

# T5DataCenters™

Top Tier. Bottom Line.

## T5@Atlanta

Now Leasing

**T5@Atlanta**, the Southeast's premier server-ready, multi-tenant enterprise data center, offering concurrently maintainable infrastructure designed for flexible data hall sizes and density requirements. Our tenants benefit from secure data halls and complete control of their applications and servers while T5 supplies 24/7 operations to ensure our clients never have to worry if their critical functions are running. T5@Atlanta meets all HIPAA, HITECH and PCI compliance requirements providing a highly secure environment to support IT business functions.

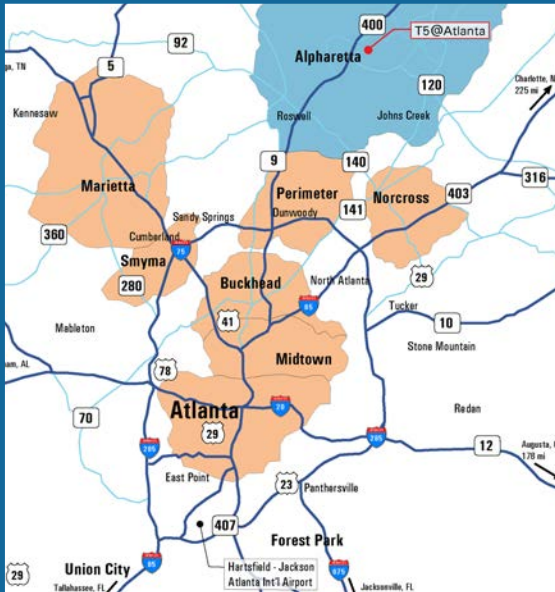

- + 100,485sf data center facility delivering 6.0 MW (expandable to 7.5MW) of highly reliable and redundant critical power in a server-ready, private suite configuration ready now to meet your needs
- + Tier III-based design provides user-unique flexibility and operational control in the data hall so you can run your business
- + Highly efficient LEED Silver design, consistently low power rates and scalable deployment capability minimizes total operational costs
- + Proven 24x7x365 critical facility operations team mitigates outage risks before they occur
