

WHY T5 PORTLAND

T5 Data Centers is your total life cycle data center services company, offering customized site selection and build-to-suit development, wholesale turnkey or powered shell data centers, Uptime Award-Winning facility management & operations, and critical facility construction services. T5 is committed to hiring veterans, our processes and procedures are based on military-proven methods for critical facilities.

Having developed over 4 million square feet of data center space and currently operating over 600 MW of critical load across 55 data centers in North America and Europe, T5 is proud to offer its Uptime Award-winning services to the Pacific Northwest's data center market.

T5@Portland gives customers access to several trans-Pacific subsea cables, attractive data center tax incentives, a growing economy and growing technology sector and a lower seismic threat compared to other west coast markets.

LOCATION ATTRIBUTES & INCENTIVES

Easily accessible and conveniently located in the Portland suburb of Hillsboro. T5@Portland sits 30 miles from Portland International Airport and 17 miles from Downtown Portland with easy access to nearby major state highways. T5 Portland offers lower total cost of occupancy compared to other western US markets. State tax incentive packages include no sales tax and significant abatement of property tax. Renewable power and solar solutions available through T5 Construction Services.
