

# A FOREVER ON SUCCESS STORY

WHEN YOUR CURRENT FM TEAM ISN'T WORKING, YOU'RE WORKING MORE.

## INCUMBENT FM PROVIDER WASN'T UP TO PAR

Long-term staffing vacancies and insufficient maintenance were putting this client's data center operations at risk.

## T5 ASSESSED AND RECOMMENDED SOLUTIONS

After months of insufficient reporting on the data center's performance, the client called in T5 to assess the operation and make recommendations on improvement.

FOREVER ON PARTNERSHIP

## HYPERSCALE TECH COMPANY

## WE TRANSITIONED RAPIDLY IN A COMPLIANCE-HEAVY EUROPEAN MARKET

Concluding that the situation was unsustainable, the client hired T5 to take over. We onboarded within 2 months in an unfamiliar, highly regulated market.

FOREVER ON SERVICE

## AND CREATED A HIGH-PERFORMANCE DATA CENTER

On Day 1, we engaged 18 top vendors, 12 new staff members, and retained most of the existing staff. All were fully trained in T5's proprietary FM system. The operation was transformed into a safety and performance machine.

FOREVER ON PERFORMANCE
