

A FOREVER ON SUCCESS STORY

THE BENEFITS OF WORKING WITH T5'S COMBINED FACILITIES MANAGEMENT AND CONSTRUCTION SERVICES TEAMS

BUILDING THE WORLD'S FASTEST SUPERCOMPUTER WAS DEMANDING

The data center for this research facility's new supercomputer installation was a live environment, and it needed an additional 60MW of new electrical and mechanical systems.

FOREVER ON EXPERTISE

EARLY-STAGE MISSTEPS LED TO A PHONE CALL

After the previous construction management team dropped the ball, the client called T5 Construction Services to take over as manager of the project.

FOREVER ON PARTNERSHIP

CLIENT:

WORLD-RENOWNED
SCIENCE AND
ENGINEERING
RESEARCH CENTER

T5'S TWO TEAMS WORKED TOGETHER TO DELIVER

Working with T5's on-site Facilities Management team to ensure there was no disruption to on-going systems, our Construction Services group successfully delivered the new infrastructure, maintaining continuity in the live environment.

FOREVER ON COLLABORATION

AND THE CLIENT'S CONFIDENCE PAID OFF

The T5 teams' collaborative services led to increased communication, collaboration between on-site teams, and reduced overall risk. Confident they have the right partner, the client further engaged us to manage a 45MW chiller plant upgrade and plan for future MEP and data hall space.

FOREVER ON YOUR BUSINESS
